## **BOOK SYNOPSIS**

Annotation This account of the various controversies caused by textbooks, their content, marketing, illustration, and publishers, provides an insight into the societal and educational concerns in the US through the 20th century. Giordano (dean of education, Utah State U.) proceeds chronologically, fitting substantial quantities of information into each chapter. The decision to omit the first names of the many authors cited in the text seems unduly stingy, many though there are. Annotation (c)2003 Book News, Inc., Portland, OR (booknews.com)
